Wednesday, January 5th

IPHONE

Subject: How to use your iPhone and iPad as a magnifying glass

- 1. Open Settings and tap on General
- 2. Next tap Accessibility and then Magnifier
- 3. Tap the toggle on the right to turn the feature on
- 4. Now you can activate the magnifier by triple clicking the side button on iPhone X (previously sleep/wake button) or the Home button for iPhone 8/8 Plus and earlier

3:49 √ Settings	3:49 - Settings General	3:49 √	3:50 √
Apple ID, iCloud, iTunes & App Store	About > Software Update >	VISION VoiceOver Off > Zoom Off >	Magnifier Magnifier lets you use your device's camera to quickly magnify things. When enabled, triple-click the side button to start Magnifier.

🛞 Wallpaper >	Date & Time	INTERACTION	
Sounds & Haptics	Keyboard	Reachability	
Siri & Search	Language & Region	Swipe down on the bottom edge of the screen to bring the top into reach.	

Alternate option to activate magnifier

Another great way to quickly pull the magnifier is through a customized Control Center icon. Here's how:

- 1. Open Settings and tap on Control Center
- 2. Tap Customize Controls
- 3. Tap the + symbol next to Magnifier
- 4. Adjust the position with the hamburger icon (three lines) on the right
- 5. Open Control Center by swiping down from the top right corner of the display on iPhone X or swiping up from the bottom of the display on iPhone 8/8 Plus and older
