Clarification Regarding our Oakmont Gardens Community in Santa Rosa, CA

IRVINE, CALIF. (March 9, 2018) — Since the Northern California wildfires this fall, there has been some confusion stemming from two senior living providers with similar names. To be clear, we are Oakmont Gardens – not Oakmont Senior Living. Oakmont Gardens is owned and operated by MBK Senior Living out of Irvine, California.

MBK Senior Living has an excellent reputation for exceeding the expectations of those we serve by providing quality services and care. The only communities our company operates in Sonoma County are Oakmont Gardens and MuirWoods Memory Care. Oakmont Gardens is not and never has been a part of the Santa Rosa-based Oakmont Senior Living Company that was founded by Bill Gallaher and currently facing litigation. We cannot comment or speculate on how they handled the evacuation, resident care or subsequent clean up following the fires storms. Oakmont Senior Living has several communities in the North Bay and we, MBK Senior Living, send our well wishes to all of the associates, residents, and families impacted by this situation. We know they will get through this difficult time.

While our community was also adversely affected by the fires, Oakmont Gardens' 200 residents were safely evacuated. The Oakmont Gardens team, along with regional MBK staff, effectively executed a comprehensive crisis and communications plan to ensure our residents were cared for, communicated with and able to return to the community at the earliest possible moment. We received hundreds of calls, notes and emails from residents, their family and staff for how effectively we handled the situation.

"Words cannot begin to thank you for all you did to make our hours of concerns and waiting less stressful. Your concerns regarding our safety and the MBK updates you sent frequently were so helpful and calming. You are our "special" responders. God bless you all. Thank you too for the warm welcome home." – Delores

"I want to say how impressed and pleased I am at how you all dealt with our recent evacuation and the return of us residents. I felt that the overall evacuation was handled in a very positive and organized fashion. It was an emergency, but there was no panic. Every effort was made to ensure the residents safety. The common sentiment expressed to me is that all of you went that extra step. I was very impressed at the effort that had been extended on our behalf." – Dan
