A Note from the Activities Director

Spring is one of my favorite times of the year. From the beautiful Florida sunshine to the flowers that scent the air. Everything breathing new life and it wraps you up into this euphoria that one can only describe as happiness! This spring I wish you all health and happiness. As always my door is open and my ear available. Stop by for a sweet treat or a chitchat!

Health & Fitness by

April is Occupational Therapy Month!

Occupational therapists are professionals that help people throughout their lifespan do the things that they want and need to do through the therapeutic use of daily activities.

Occupational therapists help people of all ages live life to the fullest by helping them prevent or live better with injury, illness, or disability. Occupational therapists also focus much of their work on identifying and eliminating environmental barriers to independence and participation in daily activities.

April showers bring May flowers,
That is what they say.
But if all the showers turned to flowers,
We'd have quite a colorful day!
There'd be bluebells and cockleshells,
Tulips red and green,
Daffodils and Chinese quill,
The brightest you've ever seen.
You'd see tiger lilies and water lilies,
Carnations pink and blue,
Forget-me-not and small sun drop
Glistening with the dew.
We'd have fireweed and milkweed
And many more different flowers.
Mexican star and shooting star,
Falling in the showers.
And if all the showers turned to flowers
On that rainy April day,
Would all the flowers turn to showers
In the sunny month of May?
