

A TRADITION OF CARING TOGETHER

Your Decision

Few decisions made in life are as difficult as the one you're facing, and we understand the challenges involved. We empathize with you and your family and are here to help.

Every Resident and their family have unique needs and concerns, and we hope you will consider us as a resource to help guide your decision-making process. Your family deserves loving care, and we're here to help you find the best fit.

Resident Bernice chats with Susan, the wife of a fellow Resident.

Our Commitment

Our philosophy comes from the heart; we strive to care for each Resident with knowledgeable experience and a keen sense of understanding each individual's needs.

We are compassionate and committed to the welfare of our Residents and offer a warm and comfortable environment that reflects a sense of home. We focus on time-tested programs to engage every Resident based on their unique life story, and we spend meaningful time with our Residents to best understand their individualized needs every day.

Our approach, as well as our many years of experience, gives us a sense of pride and motivates us to be a valued resource for you and your family.

The JEA Story

Jerry Erwin's dedication to seniors and those with memory loss started when his own mother, Margaret, developed Alzheimer's disease. She lived with the disease for over seven years. Following her passing, Jerry realized there was a tremendous need for specialized dementia care and high quality facilities. That experience deepened his commitment to serving those with dementia. In 1993, he and his extended family opened their first dedicated memory care community. Since then, our company has grown as hundreds of families have entrusted JEA Senior Living with the care of their loved one.

Welcome to the Family

Relationships often define who we are—relationships with family, between Residents, among friends and with staff. It's quality moments spent with others that truly celebrate a life well lived with great activities, the best of care, beautiful surroundings, and delicious meals.

At JEA Senior Living, we believe meaningful experiences are enhanced by those who surround us. A favorite staff member who always has a story to share, the Resident living down the hall who has become a new best friend, and the family and friends who visit and make themselves at home.

Because at JEA, family and friends are home.

Customized Care

We understand aging and want to make a positive difference for your entire family. To ensure the best quality of life for each Resident, we provide a warm and comfortable environment that is reminiscent of home.

Personalized care for each Resident, suited to individual needs. We offer assistance with daily living skills and a variety of activities to engage each and every Resident.

Memory Care: Services provided in a secured environment. Our distinctive memory care program, *Meaningful Moments*®, is focused on those with Alzheimer's disease and other related dementias.

Respite Care: Designed to give a much needed break for family on a short-term basis.

Your Team

It takes a special type of individual who is called to serve the special needs of seniors. Our staff is hired for heart and trained for technique—we hire the best staff in the industry.

We know we need to listen in order to understand. We are motivated to do the right thing at all times, because we know in order to be successful, we must earn your trust.

Getting to Know You

Our philosophy of care, **Meaningful Moments®**, focuses on Residents' psychological, social and spiritual needs by providing a customized program of activities.

Everyone has a unique personal history, and we've found that the more we honor each Resident's life story, the more successful we are with their day-to-day living experience.

This foundation helps to:

- » **Create a new home setting.** Our facilities are relatively small and simple by design, maximizing opportunities for interaction with family, visitors, staff and fellow Residents.
- » **Develop a personalized program** for each Resident's specific interests and experiences. Family members of all ages are an integral part of our program and are encouraged to visit and participate.
- » **Engage Residents in an array of diverse activities** that include cooking demonstrations, singing, pet visits, relaxing in the courtyard, gardening, exercising and enjoying a movie night.

Resident Marlys and daughter Linda enjoy coffee.
