

## HEALTH SERVICE CRITERIA

Persons whose needs could be met at The Oasis at Comfort Residence Saint Louis Park include:

- Those who are male
- Those who have a diagnosed dementia related condition and are no longer able to reside independently in their own home or apartment
- Those who may have a psychiatric diagnosis that requires a less stimulating environment
- Those who have a need for specialized programming for memory loss and aggressive or sexual behaviors
- Those who are anxious, depressed or agitated as a result of memory loss or psychiatric diagnosis and find needed support and reassurance in the ongoing availability and presence of staff
- Those who need assistance with activities of daily living, requiring more home care visits per day or who require frequent monitoring
- Those who require frequent re-direction and reassurance related to a dementia diagnosis
- Those who have behavior deficits that do not create a safety risk but that likewise do not conform to generally accepted social norms
- Those who require daily meal preparation and assistance to support adequate hydration and nutrition

## THE OASIS AT COMFORT RESIDENCE SAINT LOUIS PARK

The Oasis at Comfort Residence Saint Louis Park is an enhanced memory care setting designed to meet the needs of male individuals with behavioral challenges associated with dementia. This unique setting is a structured, calming and quaint environment for those gentlemen who are having a difficult time adjusting to a busier and more populated memory care setting.

Residents of the Oasis will experience care support by staff that have been specially trained to meet the needs of unique behavior challenges, a person-centered approach to meaningful activities and a quiet calm environment to decrease problematic behaviors thus improving the quality of life.

The Oasis consists of 9 private bedrooms with private baths, sun filled common space, a peaceful quiet safe space for when times of solitude or 1:1 attention are necessary. This along with low resident to staff ratios set "The Oasis" apart from a more traditional memory care setting.

**The Oasis** is designed to create a healthier more successful environment for our residents. Smaller populations, tons of natural light and quiet space provide the framework for better quality of life for those residents who are challenged by a more traditional memory care setting.

### Features:

- Enhanced Memory Care Programming
- Quiet spaces
- Art and Music Therapy
- Pet Therapy
- Low resident to staff ratios
- Central metro location
- Personal Care & Nursing Care provided by Gentle Touch Health Initiatives or the home care agency of your choice.
- Care coordination with Medicare Certified partners, including PT, OT, ST, Hospice and Skilled nursing.

### Onsite Medical Services

Resident and families will have peace of mind knowing that most health needs can be addressed on-site. Our MD/GNP team visits regularly, they also have a licensed psychologist on the team. Emergency services can be provided by the metro hospital of choice.
