

Kitsap Veterinary Hospital is proudly presents:

SNACK & LEARN

A series of opportunities for our clients, friends and anyone curious to learn more about topics that directly affect your pet's health and well being.

Periodically we will host a representative from different sectors of the pet industry in our hospital lobby. They will be available to:

- ✓ *Answer questions*
- ✓ *Dispel rumors*
- ✓ *Provide first hand knowledge of their product or service.*

Please join us on **Friday, December 7th** from **10:00am to 2:00pm** for our very first **SNACK & LEARN** session. **Audrey**, our representative from **Royal Canin** will be happy to answer your pet food & overall nutrition related questions. You do not need an appointment, you do not need to call ahead, and in fact you do not even need to be a client in order to ask questions or simply receive more information about pet food and nutrition. We look forward to seeing everyone!!!
