# **INDEPENDENT AUDITORS' REPORT**

Board of Directors Christian Living Communities Greenwood Village, Colorado

# **Report on the Consolidated Financial Statements**

We have audited the accompanying consolidated financial statements of Christian Living Communities (the Organization), which comprise the consolidated balance sheets as of December 31, 2018 and 2017, the related consolidated statements of operations, functional expenses, changes in net assets, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

## Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

## Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Christian Living Communities as of December 31, 2018 and 2017, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

# Emphasis-of-Matter Regarding a Change in Accounting Principles

As discussed in Note 1 to the consolidated financial statements, Christian Living Communities adopted a provision of Financial Accounting Standards Board Accounting Standards Updates 2016-14, *Presentation of Financial Statements for Not-for-Profit Entities*. The new accounting standard changes the presentation of various classifications and disclosures within the consolidated financial statements. Our opinion is not modified with respect to that matter.

As discussed in Note 1 and Note 11 to the consolidated financial statements, Christian Living Communities adopted a provision of Financial Accounting Standards Board Accounting Standards Updates 2014-09, *Revenue from Contracts with Customers*. The new accounting standard clarifies how revenue is to be recognized and requires expanded disclosures related to the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. Our opinion is not modified with respect to that matter.

## NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **Basis of Presentation (Continued)**

<u>Net Assets With Donor Restrictions</u> – Include net assets subject to donor-imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity. At December 31, 2018 and 2017, the Organization held donor-imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource has been fulfilled, or both.

#### Use of Estimates

The preparation of financial statements in conformity with auditing standards generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenue and expense during the reporting period. Actual results could differ from those estimates.

## Cash and Cash Equivalents

The Organization considers all money market accounts and certificates of deposit with original maturity dates of three months or less to be cash equivalents. Certificates of deposit are stated at cost, which approximates market value. The Organization deposits its temporary cash investments in financial institutions. At times, such investments may be in excess of the Federal Deposit Insurance Corporation insurance limit.

#### Resident Accounts Receivable

The Organization reports resident accounts receivable for services rendered at net realizable amounts from third-party payors, residents, and others. An allowance for doubtful accounts is provided based upon the review of outstanding receivables, historical collection information, and existing economic conditions. As a service to the resident, the Organization bills third-party payors directly and bills the resident when the resident's liability is determined. Resident accounts receivable are due in full when billed. Accounts are considered delinquent and subsequently written off as bad debts based on individual credit evaluation and specific circumstances of the account. As of December 31, 2018 and 2017, the allowance for uncollectible accounts was approximately \$101,000 and \$107,000, respectively.

#### Assets Limited as to Use

Supply inventories are stated at the lower of cost or net realizable value, determined using the first-in, first-out method.

#### **Investments and Investment Income**

Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value in the consolidated balance sheets. The Organization classifies their investments as trading securities and accordingly investment income or loss (including realized and unrealized gains and losses on investments, interest, and dividends) is included in excess (deficit) of revenues over expenses unless the income or loss is restricted by donor or law.

## Property and Equipment

Property and equipment are recorded at cost and depreciated over their estimated useful lives by the straight-line method of depreciation. Assets under capital leases and leasehold improvements are depreciated over the shorter of the lease term or their respective estimated useful lives. The Organization capitalizes fixed assets with a cost greater than \$1,000 and a useful life greater than one year.

Gifts of long-lived assets such as land, buildings, or equipment are reported as additions to net assets without donor restrictions, and are excluded from excess (deficit) of revenues over expenses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support. Absent explicit donor stipulations about how long those longlived assets must be maintained, expirations of donor restrictions are reported when donated or when acquired long-lived assets are placed in service.

#### **Construction in Progress**

Construction in progress as of December 31, 2018 is related to dining center projects at Someren Glen and Holly Creek. These projects are expected to be completed in May 2019 at an approximate cost of \$1,700,000. These projects are being funded internally through operations

Construction in progress as of December 31, 2017 was related to the Transitional Care Neighborhood project at Someren Glen, an LED lighting project at Holly Creek, and other various campus improvement projects. The assisted living project at Someren Glen was completed in February 2018 at an approximate cost of \$3.2 million. The remaining projects were completed throughout the first half of fiscal year 2018 at an approximate total cost of \$285,000. The projects were funded internally through operations.

## NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **Deferred Financing Costs**

Total financing costs of \$3,724,040 are shown net of accumulated amortization of \$703,733 and \$538,353 as of December 31, 2018 and 2017, respectively. The deferred financing costs are being amortized over the life of the related bonds using the straight-line method, which approximates the effective interest method. Amortization expense for the years ended December 31, 2018 and 2017 was \$165,380.

## **Deposits from Residents**

Deposits from residents represent amounts received from prospective residents who either are holding signed agreements reserving a particular apartment or waiting for a specific type of apartment to become available. These deposits are recorded under the deposit method until the applicant signs a residency agreement and moves into the facility.

#### Deferred Revenue from Advance Fees

At Holly Creek Retirement Community and Clermont Park Retirement Community, fees paid by a resident upon entering into a resident contract, net of the portion thereof that is refundable, are recorded as deferred revenue and are amortized to income using the straight-line method over the life expectancy of the resident. The period of amortization is adjusted annually based on the actuarially determined remaining life expectancy of each individual resident or on the joint and last survivor life expectancy of each pair of residents occupying the same unit. The Organization relies upon an external actuary to calculate and track the entrance fees.

In consideration for an entrance fee and, thereafter, monthly service fees, the Organization provides individuals with a residence for the remainder of their lives. The original resident contract provided for a 90% refundable entrance fee upon death or move-out from the Independent Living Unit, after the first 10 months of residency. The contract offered a refund benefit that declined at 1% per month, but not to exceed 90% of the original entry fee. This refund was offered upon the earlier of (a) re-occupancy of the unit or (b) 180 days after the unit was vacated, whichever came first.

The contract was revised for all new residents, effective January 1, 2010. This revision changed the terms of the 90% refundable entrance fee upon death or move-out from Holly Creek, which defers refunding when the resident moves to a higher level of care. The contracts are refundable upon the earlier of re-occupancy of the unit or 180 days; unless upon death which it is refundable upon re-occupancy. Entrance fees are not refundable until a resident leaves their highest level of care at the Organization.

Clermont Park opened in February 2013 and residents were offered two contract options. The contract included a 50% or 90% refundable entrance fee option. The remaining terms of these contracts are consistent with the revised contract previously mentioned.

Should residents need to temporarily or permanently relocate to a higher level of care, they shall receive a discounted rate at Holly Creek, Clermont Park, or an alternative Christian Living Neighborhoods facility. The first 10 days at any higher level of care are free to Holly Creek and Clermont Park residents.

## NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Deferred Revenue from Advance Fees (Continued)

In the event of death or move-out after the above time period, the unamortized balance of the nonrefundable entrance fee is recognized as income. The estimated liability for refundable entrance fees is recorded based upon the Organization's experience of refunding such fees.

Future revenues are dependent on various actuarial assumptions, occupancy rates, and other matters that are subject to change.

The state of Colorado requires that the Organization refund the residents refundable fees within 180 days of termination of the agreement and not just on re-occupancy of the unit. When a refund is due to a resident's estate and the unit has been re-occupied within 180 days, the Organization will refund the balance owed to the estate in less than 180 days.

Management has estimated a current portion of the amount of the remaining refundable balances as of December 31, 2018 and 2017 to be \$7,784,000 and \$7,996,000, respectively, based on the average refunds payable over prior years. This estimate includes actual refunds subsequent to year-end.

### **Obligation to Provide Future Services**

The Organization has calculated the present value of the net cost of future services and use of facilities to be provided to current residents and compared that amount with the balance of deferred revenue from advance fees. If the present value of the net cost of future services and use of facilities exceeds the deferred revenue from advance fees, a liability is recorded (obligation to provide future service) with the corresponding charge to income. The obligation is discounted at 5.5% as of December 31, 2018 and 2017. The Organization's calculation indicated no liability needed to be recorded as of December 31, 2018 and 2017.

#### **Occupancy Percentages**

During the years ended December 31, 2018 and 2017, the occupancy percentages for all of the Christian Living Neighborhoods and CLC Dayspring Villa, LLC were as follows:

|               |          | 2018     |             |          | 2017     |             |

As a result of the Someren Glen assisted living construction project that was ongoing in 2017, there was a decrease in assisted living census during 2017.

#### **Occupancy Percentages (Continued)**

During the years ended December 31, 2018 and 2017, the occupancy percentages and the percentages of residents covered under the Medicaid and Medicare programs for the nursing facilities were as follows:

## Advertising Expenses

Advertising expenses approximated \$186,000 and \$181,000 for the years ended December 31, 2018 and 2017, respectively. Advertising costs are expensed when incurred.

## Expense Allocations

The costs of providing various programs have been summarized on a functional basis in the consolidated statements of functional expenses. Whenever feasible, expenses are charged directly to the appropriate program. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

#### Excess (Deficit) of Revenues over Expenses

The consolidated statements of operations includes excess (deficit) of revenues over expenses. Changes in net assets without donor restrictions which are excluded from excess (deficit) of revenues over expenses, consistent with industry practice, include contributions of long-lived assets (including assets acquired using contributions which, by donor restriction, were to be used for the purposes of acquiring such assets).

#### Charity Care

Christian Living Communities strives to enhance life of seniors through offering high quality care and support through their retirement living communities and facilities. The Organization provides services to residents and the community regardless of their ability to pay for those services.

The Organization defines and measures this "investment in" and "partnership with" the community primarily through its benevolent care and community benefits programs. The Organization provides care to residents and clients who meet certain criteria under its financial assistance policy without charge. The key element used to determine eligibility is assessing the residents need based on a review of their assets and their monthly revenues and expenses. Because the Organization does not pursue collection of amounts determined to qualify for financial assistance, they are not reported as revenue.

## NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### **Charity Care (Continued)**

The Organization has estimated its direct and indirect costs of providing charity care under its financial assistance policy. In order to estimate the cost or providing such care, management has used actual costs and operational projections. Using this methodology, the Organization has estimated the costs foregone for services and supplies furnished under the Organization's financial assistance policy aggregated approximately \$869,000 and \$702,000 for the years ended December 31, 2018 and 2017, respectively.

The Organization receives donations under its benevolent care program and other fundraising efforts. For the years ended December 31, 2018 and 2017, the Organization received donations of approximately \$866,000 and \$952,000, respectively.

#### **Uncompensated Balances**

The Organization provided care to residents under the Medicaid program for which the costs to provide such care exceeds reimbursement. The Organization funds this difference through its operations. The shortfall associated for care provided under this program for the years ended December 31, 2018 and 2017 was approximately \$1,465,000 and \$1,547,000, respectively.

## Fair Value of Financial Instruments

Fair value measurement applies to reported balances that are required or permitted to be measured at fair value under an existing accounting standard. The Organization emphasizes that fair value is a market-based measurement, not an entity-specific measurement. Therefore, a fair value measurement should be determined based on the assumptions that market participants would use in pricing the asset or liability and establishes a fair value hierarchy. The fair value hierarchy consists of three levels of inputs that may be used to measure fair value as follows:

*Level 1* – Inputs that utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the Organization has the ability to access.

*Level 2* – Inputs that include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument. Fair values for these instruments are estimated using pricing models, quoted prices of securities with similar characteristics, or discounted cash flows.

*Level 3* – Inputs that are unobservable inputs for the asset or liability, which are typically based on an entity's own assumptions, as there is little, if any, related market activity.

## NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### Fair Value of Financial Instruments (Continued)

In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

Additionally, from time to time, the Organization may be required to record at fair value other assets on a nonrecurring basis in accordance with accounting principles generally accepted in the United States of America. These adjustments to fair value usually result from the application of the lower-of-cost-or-market accounting or write-down of individual assets.

The Organization also adopted the policy of valuing certain financial instruments at fair value. This accounting policy allows entities the irrevocable option to elect fair value for the initial and subsequent measurement for certain financial assets and liabilities on an instrument-by-instrument basis. The Organization has not elected to measure any existing financial instruments at fair value, however may elect to measure newly acquired financial instruments at fair value.

## New Accounting Pronouncements – ASU 2016-14

During the year ended December 31, 2018, the Organization adopted a provision of Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2016-14, *Presentation of Financial Statements for Not-For-Profit Entities*. This new accounting standard results in a reduction of three classes of net assets (unrestricted, temporarily restricted, and permanently restricted) to two (net assets with donor restrictions and net assets without donor restrictions) and additional disclosures around liquidity. The adoption of this accounting standard did not have an impact on the Organization's consolidated financial position or changes in its net assets.

#### New Accounting Pronouncements – ASU 2014-09

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers*. The guidance requires the Organization to recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the Organization expects to be entitled in exchange for those goods or services. The guidance also requires expanded disclosures relating to the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. Additionally, qualitative and quantitative disclosures are required regarding customer contracts, significant judgments and changes in judgments, and assets recognized from the costs to obtain or fulfill a contract.

## NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### <u>New Accounting Pronouncements – ASU 2014-09 (Continued)</u>

ASU 2014-09 requires organizations to exercise more judgment and recognize revenue using a five-step process. The Organization adopted the requirements of the new guidance as of January 1, 2018, utilizing the full retrospective method of transition. Adoption of the new guidance resulted in changes to the accounting policies for revenue recognition, trade and other receivables, contract costs, contract liabilities, and deferred costs as detailed below. The Organization applied the new guidance using the following practical expedients which are provided in Topic 606: completed contracts that began and ended in the same year were not restated; the actual, rather than estimated, consideration was used to determine the transaction price; and the amount of the transaction price allocated to the remaining performance obligations and details of when the Organization expects to recognize that amount as revenue for 2018 was not disclosed. The effects of applying these shortcuts were not significant to the consolidated financial statements.

The impact of adopting the new guidance was an increase in the deficit in net assets without restrictions and a decrease in deferred marketing costs of \$2,672,344. Previously, deferred marketing costs related to the initial sale of an entrance fee unit had been capitalized and amortized over the resident's life expectancy. Under the new guidance, the Organization capitalizes marketing costs related to obtaining a contract with a customer if the entity expects to recover those costs. The adoption of ASU 2019-09 resulted in a cumulative effect of change in accounting principle as it relates to deferred marketing costs (see Note 14).

#### New Accounting Pronouncements – ASU 2016-02

FASB issued ASU 2016-02 in February of 2016 pertaining to recording of leases. While the standard will not be effective for the Organization until the year ending December 31, 2019, the standard can be adopted as early as the year ending December 31, 2016. Early adoption has not been exercised. Implementation of the new standard can result in changes to the reporting and disclosure of leases. Management is in the process of evaluating the impact on the Organization.

#### **Reclassifications**

Certain items in the prior year consolidated financial statements have been reclassified to conform to the current year presentation. These reclassifications had no effect on the Organization's overall consolidated net assets.

#### Subsequent Events

In preparing these consolidated financial statements, the Organization has considered events and transactions that have occurred through April 26, 2019, the date the consolidated financial statements were available for issuance.

### NOTE 2 LIQUIDITY AND AVAILABILITY

As of December 31, 2018 and 2017, the Organization has a working capital balance of \$7,934,715 and \$7,293,084, respectively. The Organization had days cash on hand (based on normal expenditures) of 288 and 319 as of December 31, 2018 and 2017, respectively.

The following table represents financial assets available for general expenditures within one year on December 31:

|  | 2018          | 2017          |
|--|---------------|---------------|
| Cash and Cash Equivalents                      | \$ 15,116,414 | \$ 13,571,416 |

| Total  | \$ 23,256,408 | \$ 21,149,705 |

The Organization has certain donor-restricted assets limited as to use which are available for general expenditure within one year in the normal course of operations. Accordingly, the assets have been included in the qualitative information above for financial assets to meet general expenditures within one year.

As part of the Organization's liquidity management plan, cash in excess of daily requirements are invested in short-term and long-term investments.

#### NOTE 3 ACQUISITION

On February 9, 2018, the Organization acquired DKL Ventures, LLC dba: Select Home Care. The acquisition was funded through cash reserves and the total purchase price was \$1,851,697. The tangible assets and liabilities were valued by management. The intangible assets were valued by an independent third-party valuation specialist.

The purchase price was allocated to the assets acquired and liabilities assumed based on their estimated fair values including goodwill and intangibles on the date of acquisition as follows:

## NOTE 8 NET ASSETS WITH DONOR RESTRICTIONS

At December 31, the Organization had net assets with donor restrictions for the following purposes:

|  | <br>2018        |    | 2017      |  |

The Organization's endowment consists of funds not subject to appropriation or expenditure that were established to support the operations of the Organization. The endowment consists of donor-restricted endowment funds. As required by accounting principles generally accepted in the United States, net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

#### Interpretation of Relevant Law

The Organization is subject to the Colorado Uniform Prudent Management of Institutional Funds Act (the Act) and, thus, classifies amounts in its donor-restricted endowment funds as net assets with donor restrictions to be held in perpetuity and requiring the preservation of the fair value of the original gift as of the date of the gift of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Organization classifies as permanently restricted net assets (1) the original value of gifts donated to the permanent endowment, (2) the original value of subsequent gifts to the permanent endowment, and (3) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Organization in a manner consistent with the standard of prudence prescribed in the Act. In accordance with the Act, the Organization considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- The duration and preservation of the fund
- The purposes of the Organization and the donor-restricted endowment fund
- General economic conditions
- The possible effect of inflation and deflation
- The expected total return from income and the appreciation of investments
- Other resources of the Organization
- The investment policies of the Organization

## Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or the Act requires the Organization to retain as a fund of perpetual duration. In accordance with accounting principles generally accepted in the United States of America, deficiencies of this nature are reported in net assets without donor restrictions. As of December 31, 2018 and 2017, there were no deficiencies reported in net assets without donor restrictions.

## **Return Objectives and Risk Parameters**

The Organization has adopted an investment policy for their investment funds, including the permanent endowments that attempt to provide a balance of maintenance of adequate cash reserves, preservation of principal for funds designated as cash reserves, and growth of remaining assets within reasonable and prudent levels of risk. Endowment assets include those assets of donor-restricted funds that the Organization must hold in perpetuity. Under this policy, as approved by the board of directors, the endowment assets are invested in a manner that is intended to produce results that provide a total return, growth in income, and a predictive and dependable source of income.

#### NOTE 8 NET ASSETS WITH DONOR RESTRICTIONS (CONTINUED)

#### Strategies Employed for Achieving Results

To satisfy its capital appreciation and expected results, the Organization relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Organization targets a diversified asset allocation that places a balance of equity-based investments and fixed income investments to achieve its objectives within the risk constraints.

#### **Spending Policy**

The Organization has a policy (the spending policy) of appropriating for expenditure each year the investment return on the endowment funds. In establishing this policy, the Organization considered the long-term expected return on its endowment. This is consistent with the Organization's objective to maintain the purchasing power of endowment assets held in perpetuity or for a specified term.

#### NOTE 9 PENSION PLANS

#### **Qualified Plan**

The Organization has a 403(b) tax sheltered retirement plan covering substantially all employees. After two years of service, the employer has discretion to make contributions to the plan. The employer typically contributes a set percentage on an eligible employee's contributions. Pension expense was \$213,861 and \$196,570 for the years ended December 31, 2018 and 2017, respectively.

The Organization has a 457(b) deferred compensation plan for eligible members of management. There is no vesting period for the contributions made by the Organization to the plan. The Organization may make contributions to the plan as approved by the board of directors, whereby contributions can be made to the plan but are not to exceed the maximum deferral limit in a traditional 403(b) plan. The Organization typically contributes a set percentage on an eligible employee's contributions. The Organization contributed \$66,422 and \$58,586 for the years ended December 31, 2018 and 2017, respectively.

# NOTE 10 SIGNIFICANT CONCENTRATIONS AND CREDIT RISK

The Organization grants credit without collateral to its residents. The mix of accounts receivable from residents and third-party payors at December 31, 2018 and 2017 was:

|                          | 2018    | 2017    |
|--------------------------|---------|---------|
| Medicare                 | 16.0 %  | 18.0 %  |
| Medicaid                 | 33.0    | 31.0    |

| Total                    | 100.0 % | 100.0 % |

## NOTE 11 RESIDENT AND CLIENT SERVICES REVENUE

#### Resident and Client Services Revenue

Resident and client services revenue is reported at the amount that reflects the consideration to which the Organization expects to be entitled in exchange for providing resident care. These amounts are due from residents, third-party payors (including health insurers and government programs), and others and includes variable consideration for retroactive revenue adjustments due to settlement of audits, reviews, and investigations. Generally, the Organization bills the residents and third-party payors several days after the services are performed. Revenue is recognized as performance obligations are satisfied.

Performance obligations are determined based on the nature of the services provided by the Organization. Revenue for performance obligations satisfied over time is recognized based on actual charges incurred in relation to total expected (or actual) charges. The Organization believes that this method provides a faithful depiction of the transfer of services over the term of the performance obligation based on the inputs needed to satisfy the obligation. Generally, performance obligations satisfied over time relate to residents in the facility receiving skilled nursing services or housing residents receiving services in the facility. The Organization considers daily services provided to residents of the skilled nursing facility, and monthly rental for housing services as a separate performance obligation and measures this on a monthly basis, or upon move-out within the month, whichever is shorter. Nonrefundable entrance fees are considered to contain a material right associated with access to future services, which is the related performance obligation. Revenue from nonrefundable entrance fees is recognized ratably in future periods covering a resident's life expectancy using a time-based measurement.

Revenue for performance obligations satisfied at a point in time is generally recognized when goods are provided to the residents and customers in a retail setting (for example, gift shop, salon, transportation, and cafeteria meals) and the Organization does not believe it is required to provide additional goods or services related to that sale.

Because all of its performance obligations relate to contracts with a duration of less than one year, the Organization has elected to apply the optional exemption provided in FASB ASC 606-10-50-14(a) and, therefore, is not required to disclose the aggregate amount of the transaction price allocated to performance obligations that are unsatisfied or partially unsatisfied at the end of the reporting period.

The Organization determines the transaction price based on standard charges for goods and services provided, reduced by contractual adjustments provided to third-party payors, discounts provided to uninsured patients in accordance with the Organization's policy and/or implicit price concessions provided to residents. The Organization determines its estimates of contractual adjustments based on contractual agreements, its policies, and historical experience. The Organization determines its estimate of implicit price concessions based on its historical collection experience.

## NOTE 11 RESIDENT AND CLIENT SERVICES REVENUE (CONTINUED)

#### Resident and Client Services Revenue (Continued)

The Organization recognizes the majority of its revenues over a period of time from its payors based on fees for services performed. Agreements with third-party payors typically provide for payments at amounts less than established charges. A summary of the payment arrangements with major third-party payors follows:

#### Medicaid

The skilled nursing facilities participate in the Medicaid program administered by the Colorado Department of Health Care Policy and Financing. The Medicaid rates are established prospectively; based on the facility's annual cost report; subject to limitations for the health care related services; administration is based on a price and the capital component is based on the fair rental allowance system. The direct health care related services component is adjusted quarterly, based on the facility's resident acuity.

#### Medicare

The licensed nursing facility participates in the Medicare program. This federal program is administered by the Centers for Medicare and Medicaid Services (CMS). The nursing facility is paid under the Medicare Prospective Payment System (PPS) for residents who are Medicare Part A eligible and meet the coverage guidelines for skilled nursing facility services. The PPS is a per diem price-based system. Annual cost reports are required to be submitted to the designated Medicare Administrative Contractor; however, they do not contain a cost settlement.

Nursing facilities licensed for participation in the Medicare and Medical Assistance programs are subject to annual licensure renewal. If it is determined that a nursing facility is not in substantial compliance with the requirements of participation, CMS may impose sanctions and penalties during the period of noncompliance. Such a payment ban would have a negative impact on the revenues of the licensed nursing facility.

#### <u>Other</u>

Payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations provide for payment using prospectively determined daily rates.

## NOTE 11 RESIDENT AND CLIENT SERVICES REVENUE (CONTINUED)

#### Resident and Client Services Revenue (Continued)

Settlements with third-party payors for retroactive adjustments due to audits, reviews, or investigations are considered variable consideration and are included in the determination of the estimated transaction price for providing patient care. These settlements are estimated based on the terms of the payment agreement with the payor, correspondence from the payor, and the Organization's historical settlement activity, including an assessment to ensure that it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the retroactive adjustment is subsequently resolved. Estimated settlements are adjusted in future periods as adjustments become known (that is, new information becomes available), or as years are settled or are no longer subject to such audits, reviews, and investigations. Adjustments arising from a chance in an implicit price concession impacting transaction price, were not significant in 2018 or 2017.

Generally residents who are covered by third-party payors are responsible for related deductibles and coinsurance, which vary in amount. The Organization estimates the transaction price for residents with deductibles and coinsurance based on historical experience and current market conditions. The initial estimate of the transaction price is determined by reducing the standard charge by any contractual adjustments, discounts, and implicit price concessions. Subsequent charges to the estimate of the transaction price are generally recorded as adjustments to resident and client services revenue in the period of the change. Additional revenue recognized due to changes in its estimates of implicit price concessions, discounts, and contractual adjustments were not considered material for the years ended December 31, 2018 and 2017. Subsequent changes that are determined to be the result of an adverse change in the resident's ability to pay are recorded as provision for uncollectible accounts.

The Organization has determined that the nature, amount, timing, and uncertainty of revenue and cash flows are affected by the following factors: payors, geography, service lines, method of reimbursement, and timing of when revenue is recognized. Tables providing details of these factors are presented below.

The composition of resident services revenue by primary payor for the years ended December 31, 2018 and 2017 is as follows:

|                        | 2018             | <br>2017         |
|------------------------|------------------|------------------|

| Total                  | \$<br>57,921,179 | \$<br>52,788,488 |

Revenue from resident's deductibles and coinsurance are included in the categories presented above based on the primary payor.

## **Financing Component**

The Organization has elected the practical expedient allowed under FASB ASC 606-10-32-18 and does not adjust the promised amount of consideration from residents and third-party payors for the effects of a significant financing component due to the Organization's expectation that the period between the time the service is provided to a resident and the time that the resident or a third-party payor pays for that service will be one year or less. However, the Organization does, in certain instances, enter into payment agreements with residents that allow payments in excess of one year. For those cases, the financing component is not deemed to be significant to the contract.

#### Contract Costs

The Organization has applied the practical expedient provided by FASB ASC 340-40-25-4 and all incremental customer contract acquisition costs are expensed as they are incurred as the amortization period of the asset that the Organization otherwise would have recognized is one year or less in duration.

### Litigation

The Organization is subject to asserted and unasserted claims encountered in the normal course of business. The Organization's management and legal counsel assess such contingent liabilities and such assessment inherently involves an exercise in judgment. In assessing loss contingencies related to legal proceedings that are pending against the Organization or unasserted claims that may result in such proceedings that are pending against the Organization or unasserted claims that may result in such proceedings, the Organization legal counsel evaluates the perceived merits of any legal proceedings or unasserted claims as well as the perceived merits of the amount of relief sought or expected to be sought therein. In the opinion of management, disposition of these matters will not have a material effect on the Organization's financial condition or results of operations.

#### Health Care

The health care industry is subject to numerous laws and regulations of federal, state, and local governments. These laws and regulations include, but are not necessarily limited to, matters such as licensure, accreditation, government health care program participation requirements, reimbursement for patient services, and Medicare and Medicaid fraud and abuse. Recently, government activity has increased with respect to investigations and allegations concerning possible violations of fraud and abuse statutes and regulations by health care providers. Violations of these laws and regulations could result in expulsion from government health care programs together with the imposition of significant fines and penalties, as well as significant repayments for resident services previously billed.

#### Government Regulations – Medicaid

The Organization participates in the Medicaid program that is administered by the Colorado Department of Public Health and Environment, Health Facilities and Emergency Medical Services Division. The program requires an annual cost report filing, and the cost reports are subject to audit, which could result in retroactive rate adjustments.

#### **Government Regulations – Medicare**

The Medicare intermediary has the authority to audit the skilled nursing facilities records any time within a three-year period after the date the skilled nursing facilities receive a final notice of program reimbursement for each cost reporting period. Any adjustments resulting from these audits could retroactively adjust Medicare revenue.

#### Medical Malpractice Coverage

The Organization pays fixed premiums for annual professional liability insurance coverage under a claims-made policy. There were no claims outstanding at December 31, 2018 and 2017 and the Organization is not aware of any unasserted claims or unreported incidents that are expected to exceed malpractice insurance coverage limits.

# NOTE 13 FAIR VALUE MEASUREMENTS

The Organization uses fair value measurements to record fair value adjustments to certain assets and to determine fair value disclosures. For additional information on how the Organization measures fair value, refer to Note 1 – Summary of Significant Accounting Policies.

The following methods were used to estimate the fair value of all other financial instruments recognized in the accompanying consolidated balance sheets at amounts other than fair value.

#### Assets Limited as to Use and Investments

# NOTE 14 CUMULATIVE EFFECT – CHANGE IN ACCOUNTING FOR DEFERRED MARKETING COSTS

During the year ended December 31, 2018, the Organization adopted ASU 2014-09. Previously, the Organization deferred costs of acquiring initial continuing-care contracts that were expected to be recovered from future revenues. These costs included salaries and commissions paid to sales office personnel located at the community, direct response advertising costs, and initial branding of the project. The costs were being amortized on a straight-line basis over the average expected remaining lives of the residents under the contract or the contract term, if shorter. Amortization began upon the earlier of one year from initial occupancy of the independent living units or upon stabilized occupancy of those units. Under ASU 2014-09, these deferred marketing costs no longer qualify for capitalization as the new guidance only allows for capitalization of incremental costs of obtaining a contract with a customer if the entity expects to recover those costs.

The adoption of ASU 2014-09 results in a prior period adjustment increasing net deficit by \$2,672,344 and decreasing the asset for deferred marketing costs by \$2,672,344 as of January 1, 2017. The deferred marketing costs amortization expense included in expenses in the statement of operations for the year ended December 31, 2017 was decreased by \$483,798 due to the adoption of this standard. The following table presents the opening net deficit, as adjusted for the cumulative effect of the change in accounting for deferred marketing costs.
