Alzheimer's Research Updates and Facts

This Alzheimer's and Brain Awareness Month, learn about current advancements relating to Alzheimer's.

Advance: Brain Scans Improve Diagnosis

The Alzheimer's Association shares that as of April 2019, a national study found a form of brain imaging that detects Alzheimer's-related plaques greatly influenced the clinical management of patients with mild cognitive impairment and dementia.

Advance: Early Onset Detection with Tests

In 2019, several types of blood tests have been in the news for their potential to diagnose Alzheimer's before symptoms show. The latest may be able to predict the disease 10 years before symptoms show by looking at the IRS-1 protein. Another is said to predict the disease within 3 years. There is much that is moving forward on this front.

Advance: Brain Disorder LATE That Mimics Alzheimer's Has Been Defined

Diagnostic criteria and guidelines are now recommended for a brain disorder that mimics symptoms of Alzheimer's. It's called LATE and when those with only LATE are not grouped with those with Alzheimer's (and not LATE), there may be research improvements. (Science Daily)

Team Member Spotlight Romey Z .

Romey is one of our life long employees who has been with Farmington Square for 20 years! She is an exceptional housekeeper who prides herself in keeping the buildings looking amazing and Residents apartments feeling like home. She first found her love for Seniors at the young age of eight while taking care of her Blind Grandfather and you can tell that she truly loves her job by the way she interacts with each Resident and always makes sure that they feel wanted and important! Romey is also a team player who will assist the Med Techs, Caregivers and Activities, from helping with meals, assisting with activities and even taking time out of her busy day to sit down and talk with a Resident who is having a difficult day. She shared that the one thing that makes her job most rewarding is knowing that she can make her Residents happy and that she is able to encourage them to come out of their apartments to be involved and enjoy their day! Romey is a bundle of joy who brings a smile to everyone's face and we are so honored to have had her a part of our Team for so many years!

Resident Spotlight Jim D.

We first met Jim when his wife Clare moved to Farmington Square for care a few years ago. He shared that when it was his time to move he remembered how wonderful we were and decided that this was the Community for him. Jim was born in Havre Montana and grew up in Southern California where he met and fell in love with his Middle Scholl sweetheart Clare. Jim served in the Navy for 21 years and specialized in Electronics and Communication, where he married Clare and had 4 beautiful children. His love of Electronics lead him into working with his father and going to different Industries all around teaching about Electric Motors. Jim still enjoys electronics and his hobby is amateur radios. Jim shared that his love now is helping others and making a difference in their lives and he shows that every day by being a true gentleman and assisting others to the table for meals and helping when needed. We are honored to have Jim as Resident of the Month and also a part of our Farmington Square Family!
