10/30 Sarai Salinas

October is a strange month, weather-wise. Cooler days normally arrive in October, but days of warm, almost summer-like weather can reappear. Farmers rushing to harvest the last of their crops are grateful for these Indian summer days. October, with its beautifully changing foliage, is one of the most colorful months of the year. Join us in welcoming this gorgeous change in season as we celebrate Octobers' festivities with a fun and family friendly FALL FESTIVAL on HALLOWEEN!!!

Proper nutrition is a vital element for fighting off illness and recovering from injury, so these oft-overlooked men and women are just as important to your health as your physicians. We would like to take this opportunity to thank every single member in our Dietary Department. Your dedication to good nutrition earns you thanks by the ton. We appreciate your hard work to bring healthy food to everyone. Your passion for service always shines through.

Cultivating Space
Pastoral Care Week 2019

Spiritual Care has been an important part of our society's well-being since humanity sought meaning and connection in its life together. Hospitality as welcome and nurture requires space for people to feel free and accepted. Spiritual care takes seriously the meaningful nature of the space in which we live - its physical realities and its metaphorical meaning. Thus there is value in providing space where one can feel safe and sheltered, space that allows dignity and creativity and spaces where reflection and worship enrich well-being and humanity.

The offering of space can involve silence. Cultivating space can be an opportunity to create something where there was once nothingness. What a person does with his or her space is personal be it reflective or shared. If someone allows you into that space it is an invitation where silence can speak and meaning can be fostered. May this year's focus bless you with space to offer care-ful spirituality.
