

Following the Lead of the Centers for Disease Control & Prevention

At Fairfield Property Management, the health and well-being of our residents and employees is always our first priority. Therefore, we are taking extra precautions over the coming weeks to ensure that our communities remain guarded against the spread of viral infections. **We are following guidance from the CDC and state officials and have adopted a policy to restrict visitors to our office and suspend all tours through April 12, 2020.** We ask that all communication be sent via telephone or email. We understand that this is a big ask for our residents. However, it is our obligation to do everything we can to protect those we serve.

Additionally, we are providing our employees, residents and visitors with ongoing education regarding proper hygiene practices. This includes heightened awareness about the importance of handwashing, coughing and sneezing etiquette, and the frequent sanitizing of all surfaces.

Every member of our team is dedicated to this mission, and we will always operate with our residents' best interests at heart.
