

As one of the biggest locally owned and operated storage facilities and Penske agents in Charlotte and Penske being an essential business we have decided to keep our facility up and running under proper and stern regulations including but not limited to social distancing, contactless storage and truck rentals, continues cleaning and disinfecting, all employees have sanitary gloves and masks, portable exterior restrooms have been brought in, and limited access to warehouse.

We encourage our storage customers to avoid stopping by to their units during this crisis for anything that is not urgent.

Thank you for your understanding and patience during this time and rest assured that we at Atlantic Self Storage are keeping our employees and customers as safe as we possibly can.

Stay safe and stay strong Charlotte , we're all in this together!
