

Welcome to the St. Francis Kūpuna Village

St. Francis Healthcare System of Hawaii has remained faithful to its roots and is committed to making care accessible to those across the entire socioeconomic spectrum.

The St. Francis Kūpuna Village at the Liliha campus is a one-stop hub for vibrant health and wellness for seniors. It is Hawaii's first comprehensive center rich in services designed specifically for both campus visitors and those who live on the campus.

It is a place that understands both seniors and family caregivers – their challenges, fears, dreams, and aspirations – and is expressed in the lifestyles, care and services we offer.

In partnership with Ohana Pacific Management, which offers a full range of medical and social services, seniors will be able to move smoothly between healthcare services and social activities with friends and family.

As a geriatric center of excellence, it offers the finest clinical, social, spiritual and psychological

care. This is consistent with St. Francis Healthcare System's approach of caring for the whole person – body, mind and spirit.

The campus is a gathering place for the whole family, recognized for integrated services to enhance the quality of life for seniors and provide professional and peer support for caregivers.

It is a place that offers comfort for our bodies, nourishment for our souls, and stimulation for our minds.

- A multi-purpose senior community center for health and wellness classes

Innovative Skilled Nursing & Health Care Services

The Villas is a renovated 119-bed, post-acute care facility located in the St. Francis Kūpuna Village in the heart of Honolulu. This community is owned and operated by Ohana Pacific Management Company. Unlike traditional long-term care facilities, The Villas is an innovative, short-stay, high-acuity center that serves those who require clinical and rehabilitative care until they can safely go home or transfer to a traditional long-term care facility. Here, patients can receive the care they need while experiencing a positive, healing environment.

Healthcare Partners on Campus

Hawaii Pacific Neuroscience, the state's leading multi-specialty neuroscience practice that specializes in Alzheimer's disease and Dementia care and research, is located on our Liliha campus.

Additional providers are continually joining our campus thanks, in part, to the exciting momentum at our Liliha campus. Each day, more respected providers are seeing the great potential the St. Francis Kūpuna Village offers.

Welcome to Active Aging Defined

Welcome to Our Senior Community Center

The senior community center is a place for seniors who want to live healthier and age in place. The senior community center is ideal for those who want to experience healthy aging and have their daily social needs fulfilled in a secure, fun environment. Family members can have peace of mind knowing that their loved one's are thriving in their "golden years" within a safe environment.

Classes and workshops for seniors and their family caregivers are designed to increase awareness about the value of active aging, inspire and motivate seniors to explore and engage in activities that allow them to offer meaningful, impactful contributions to the community.

Our senior community center is a place to get away from home for a few hours a week, engage in a recreation or class of interest, enjoy companionship and purpose; a place to volunteer, and obtain meaningful and relevant information. It's a convenient gateway to social and healthcare services on campus.

Participants in our Senior Community Center

can relax outdoors with friends in a spacious courtyard, enjoy activities or exercise in the multi-purpose room, or participate in a health and wellness program. At the Day & Salon Spa, they can enjoy a manicure or a pedicure, or have their hair styled. They may also choose to spend a few quiet moments of reflection in the Saint Marianne Cope Chapel or converse online with family and friends in the Technology Room.

Family Caregiver Support Services

Our Senior Community Center also offers family caregiver education and support services. Specially designed facilities include a simulation room for hands-on training for caregivers to ensure they are equipped to serve as caregivers for their loved ones at home.

Traditional Dining and Bistro for Healthy, Nutritious Meals

Food is one of life's simple pleasures. We invite you to experience our family-style dining with fresh, traditional, local flare. Our Executive Chef prepares three meals each day based on your personal tastes and nutritional needs. Whether you prefer your old favorites or are eager to try new foods, you will not be disappointed. Our restaurant-style dining services program means your loved one will have a choice of two entrée selections largely prepared from scratch, just as residents would have done in years past. In addition, we offer an always available menu. Modified and special

diets may be considered by a Registered Dietician and the Administrator.

The courtyard will feature a bistro-style café, coffee shop and special events, which includes a happy hour bar that takes full advantage of Hawaii's indoor-outdoor living tradition while offering traditional, local and healthier meal options. Nutritious meals from the on-campus bistro will be a part of the experience for those who participate in the Senior Community Center including residents, family and staff.

An Outdoor Oasis

Our expansive courtyard offers clients, patients, caregivers and others a place of solace and serenity. Guests enjoy a fusion of architectural styles that combine the endearing charm of Hawaii's plantation era with those of the quaint, historic Italian villas of Assisi.

Adult Day Care = Peace of Mind

The St. Francis Kūpuna Village also includes an Adult Day Care Center, for those who still reside at home. The program offers those who can benefit from a little support and purposeful programming social, physical, nutritional and recreational services in a secure and caring environment.

Participants in our vibrant day care program experience opportunities to grow, learn, connect and create with others – including teens who want to participate in an intergenerational program – all under the professional and nurturing care of our highly skilled staff who are dedicated to keeping participants active and thriving.

Our adult day care is a wonderful solution for caregivers who work during the day and cannot safely leave their aging loved one at home alone. It's also an opportunity for caregivers to take a well-deserved break from daily caregiving responsibilities.
