

We are Welcoming New Residents During COVID-19

HERE'S WHY:

- Even before the pandemic, family caregivers have been identified as being at higher risk for health concerns. Moving a loved one to senior living can improve the safety for seniors and family members alike.
- Seniors who find themselves isolated at home may have minimal support. Daily tasks like errands and grocery shopping may put them at unnecessary risk of exposure.
- The reality of social distancing can translate into fewer check-ins from neighbors or visitors who aren't taking proper safety precautions. Residents find comfort in having 24-hour access to a trained care team who are regularly screened for coronavirus symptoms.
- Senior Living providers play a crucial role in alleviating the strain on the stressed Healthcare system by continuing to welcome new residents.
- Our community provides an engaging environment for Seniors to live safely and independently with purpose, and surrounded by support and care.

WE ARE OFFERING VIRTUAL MEETINGS & TOURS

- Virtual tours allow you to experience our community while adhering to shelter-in place orders. To set up an individual or group virtual tour for the entire family, give us a call!

WHAT YOU SHOULD KNOW—PEACE OF MIND

- Our intention is to protect the well-being of both current and future residents. Throughout the entire move-in process, we will monitor our resources and capacity and provide transparent communication about our ability to welcome new residents.

NEXT STEPS

- Call us to schedule a virtual meeting where you can ask questions, express concerns, and educate yourself about senior living and whether it's right for you or your loved one.
