

COVID-19 Communication From Senior Living Management

Families and Residents of Senior Living Management,

July 1, 2020

COVID-19 concerns have changed the world we live in. At Senior Living Management we are taking extraordinary steps to keep our residents and associates safe. The safety and health of our residents and staff are of utmost priority.

Recently, The Georgia State Governor has extended the state of emergency which will require the current protocols to stay in place through August 11, 2020. We will be able to continue to arrange for family visits outdoors on a limited and scheduled basis as long as your community does not have a recent COVID-19 case for associates or residents.

We continue to follow CDC and Department of Health guidelines to maintain the following precautionary measures:

- Restricted access to only essential visitors.
- Social distancing, to include the continued temporary cessation of communal dining and communal activities.
- Enhanced cleaning each shift of all high traffic areas and touch points.
- Maintaining a screening process for staff, third-party providers, and essential visitors, which includes temperature checks upon entry, as well as detailed screening questions regarding their activities.
- Providing our residents with masks to use when they are outside of their apartment and for when staff members enter their apartment for care or services, and completing temperature checks multiple times a day for all residents.
- Requiring all staff, third-party providers, and visitors to wear masks AT ALL TIMES.**
- Following established protocols if a positive COVID-19 result is received for residents or associates.

We have established a dedicated COVID19@slm.net resource email address for families to utilize for general COVID related questions or concerns. If you have a specific question concerning a resident, we encourage you to reach out directly to the Executive Director at that community. When there are updates specific to your community, you will receive an email from COVID19@slm.net. We will continue to apply new protocols as we see fit and will communicate them accordingly.

Through our Separate & Social programming, our dedicated staff continues to encourage our residents to stay active physically, mentally and emotionally through entertainment, brain games, exercise, virtual visits, and a variety of other fun opportunities - all with our hospitality mindset. Despite what is going on in the world, our residents and staff remain in good spirits, and your continued support is greatly appreciated.

Thank you,
Senior Living Management
