

COVID-19 Communication From Senior Living Management

July 21, 2020

Dear Savannah Cottage of Lakeland Residents, Families, and Associates:

At Senior Living Management, our primary goal is the safety and well-being of our residents and our caring staff. As we navigate this public health emergency, we hope to do so together, by consistently communicating openly with our residents and families.

We have learned that we have a resident who is positive for COVID-19. They are in isolation in their apartment. All staff are in full PPE.

We continue to follow protocols, as provided by the DOH, CDC and other authorities:

- All Residents will be tested.
- We have increased symptom and temperature checks on all residents from two to three times a day.
- Residents have been provided a mask to wear when they are out of their apartment; staff will remind them often to wear their mask properly.

We will continue to follow the other protocols which we have had in place during this time, as directed by the authorities, such as:

- Restricted access to only essential visitors.
- Travel to only medically necessary appointments outside the community.
- Social distancing.
- Dining and group activities are limited per CDC guidelines.
- Enhanced cleaning each shift of all high traffic areas and touch points.

The residents are in good spirits. Thank you for keeping in touch and supporting them through this challenging time. When you speak with your loved ones, please encourage them to wear their mask, and to follow universal precautions. Our community will continue to support digital visits, and we will continue to apply new protocols as we see fit and communicate them accordingly. If there are further questions, please do not hesitate to reach out to the community.

Thank you,
Senior Living Management
