

For the Joys of Senior Living

Innovative. Engaging. Enlivening.
Totally Captivating.

September 10, 2020

Dear Residents and Family Members,

As you are all aware, we have been working diligently to prevent the spread of COVID-19 throughout our communities since mid-March. We have worked in concert with the Oakland County Health Department creating best practices. They have been an invaluable resource for us as we worked to stop the spread and keep our residents and team members healthy and happy. Many systems and processes have evolved over the past several months. One item of importance that has dramatically improved is the availability of testing. All Seasons is pleased to announce in-community COVID Testing for all residents and employees. As we know, early testing and discovery is key to controlling the spread of COVID-19.

We will be initiating this service beginning September 21st. The first step in reducing the curve is signing up for the program. Enclosed you will find an authorization form and insurance information questionnaire. Once we receive your authorization and insurance information you will receive an appointment card with further instruction.

We deem these measures necessary to provide a happy and healthy environment. I want to close by assuring you that we are taking this crisis very seriously and we are doing everything in our power to minimize the risk and exposure of our residents.

Sincerely,

Executive Director

ALL SEASONS SENIOR LIVING COMMUNITIES
