

A note to our Residents, Families, and Partners,

## Welcome to Fall!

Many communities are already bracing for wintery weather, and we can begin to feel the chill in the night air – the ideal time to pull out a favorite sweater, fuzzy socks, and the paper/iPad.

## COVID-19

I have a quick update for a few communities managing COVID-19. We continue to push the virus away, and a few communities are winning the battle.

Sea View, Rosewood, and Pennington Gardens are COVID-19 free. Each community did an amazing job of stemming the virus.

Westwind is resuming testing this week and we should have more information shortly.

Wheatfields and Sun Oak are currently retesting staff and residents as a couple of staff members tested positive. We wish them the best.

## Pumpkin Bouquets from a Distance

Halloween parties and activities entertained residents, staff, and family members from a respectable distance. Pumpkin carving, flower arrangement events, and cork art led the way in favorite activities.

Flu season is here. Stay safe, wear your mask, maintain social distancing, and stay Seasons Strong.

Sincerely,

Dan Williams | President & COO
