

Our Continued Response to COVID-19

At Anthology, our top priority is to protect the health and wellbeing of all who live and work at our communities. We are committed to maintaining best-in-class safety practices that adhere to CDC, state, and local guidelines, and to providing programs and activities that nurture wellness in body, mind, and spirit during this challenging time.

Communication

To keep you informed, corporate and community updates are shared through frequent emails, phone calls, and website and social media postings. And, you are welcome to reach out directly to us with questions or concerns.

RESIDENT WELLNESS

COMMUNITY WELLNESS

Socially Distanced Engagement Program

Residents are provided with programs and activities to nurture wellness in mind, body, and spirit. Alexa devices are provided in many residents' suites, to access music, news, and games, and to hear group activities and broadcasts.

PPE Procurement

Through strong vendor relationships, our communities have an ample and steady supply of personal protective equipment (PPE) and hygiene supplies.

Together Apart

Residents are encouraged to stay closely connected with loved ones by phone, video chat, email, window-visits, in-person visits where permissible, and socially-distanced celebrations such as family car parades.

Helping Our Heroes

To acknowledge, support and motivate our dedicated team members, we increased wages and bonuses, set up support hotlines, and instituted spirit contests and awards.

Telehealth Appointments

Residents can safely meet with their doctors using telehealth technology, including Anthology-provided iPads and vital monitoring tools.

Testing and Screening

Team members are tested for COVID-19 on an ongoing, randomized basis. Residents are tested as required by local circumstances. Residents, team members, care partners, and visitors are screened daily for fever, symptoms, or exposure.

Entice In-Room Dining

Daily snacks, beverages and three nutritious, chef-inspired meals are delivered for residents to enjoy in their suites during periods of quarantine. We also have mobile happy hour, with themed beverage carts!

Visiting

Our careful visitor policies are adapted to local circumstances and regulations. We facilitate visits wherever possible, while maintaining safety measures to limit exposure.
