

A note to our Residents, Families, and Partners,

Holiday Travel

Our communities remain hyper-vigilant in resisting the advancing COVID-19 wave. We can't thank our caregivers, dining, nurses, and administrative teams who all are working in lockstep as a community. Our traveling teams are available to leave at a moment's notice if one of our communities needs attention, but as of now, we are working remotely, offering assistance, guiding, and coaching.

This year Thanksgiving is different for everyone. Regardless of how you choose to celebrate the holiday, we ask that you limit travel, share meals with loved ones you live with, and call grandma. The spikes around the country are a reminder that we cannot let our guard down. Stay Seasons Strong.

COVID-19

Five communities are managing positive cases. The Executive Directors are writing letters and placing phone calls, and communicating weekly to friends, families, and residents.

Rosewood, The Lodge In Sisters, Westwind, and Bayberry Commons learned of a staff member's positive case early this week, and regular testing moves forward.

Sun Oak and Wheatfields each have a couple of positive residents and are utilizing the Transitional Retreat program. The Transitional Retreat's design allows residents with positive tests to live within the community and receive one-on-one care from our Care concierge team. Spread within the community is radically reduced with the use of the program.

Sincerely,

Dan Williams | President & COO
