

# COVID-19 VACCINE UPDATE

---

12/15/20

## **We are Moving Forward- A Vaccine- Coming Soon!**

Jaybird Senior Living is excited to announce that each of our Communities have been assigned to a government-approved pharmacy affiliated with Operation Warp Speed for the upcoming distribution of the COVID-19 vaccine. While this is a very fluid situation and vaccine pharmacy distribution can change, we anticipate Phase 1, Dose 1 as early as December 28<sup>th</sup> in our communities for both our residents and employees- **with no out of pocket cost**. This information is based on communication we have received directly from our designated pharmacy partners. The Jaybird Senior Living leadership team, alongside our Community Directors and Nurses, have been working diligently to obtain and prepare the required consent forms for both residents and employees.

## **COVID-19 vaccine proven safe and effective – According to the FDA-**

When the Food and Drug Administration (FDA) announced it has issued an emergency use authorization (EUA) for the Pfizer-BioNTech COVID-19 vaccine, shipments began marking a significant milestone in the country's battle against the virus.

The COVID-19 vaccine was developed and tested in multiple phases as required for all vaccines. Tens of thousands of people received the vaccine during the tests, and effectiveness and safety was monitored for eight weeks. Before approving a vaccine, the FDA independently and rigorously analyzes data from the clinical trial. EUA is not granted until this independent analysis is completed. Findings reveal both the Pfizer and Moderna vaccines to be greater than 94% effective in preventing COVID-19 and any associated side effects were not serious and resolved within 24 hours after administration.

Sincerely,

Allison Law  
Chief Operating Officer  
Jaybird Senior Living
