NATIONAL SENIOR CITIZENS DAY

On August 21st, National Senior Citizens Day recognizes the achievements of the more mature representatives of our nation. The day provides an opportunity to show our appreciation for their dedication, accomplishments, and services they give throughout their lives.

According to the 2017 census, 47 million seniors live in the United States. By 2060, that number will nearly double. Their wealth of knowledge, skill, and experience offer so much to the next generation. As technologies advance, these are the people who've experienced each step of change. Not only have they contributed to it, but they understand firsthand the benefits and the drawbacks. They know life without the advancements that exist today.

Our senior citizens are pioneers of science, medicine, psychology, civil rights and so much more. Their valuable contributions to our communities create better places to live. They deserve the respect and dignity their achievements earn them. The encourages supporting senior citizen to live their lives to the fullest and as independently as possible.

On August 19, 1988, President Ronald Reagan signed [Proclamation 5847](#) declaring August 21st as National Senior Citizens Day.
