

June 19, 2020

As we start to see restrictions ease, and some additional services and amenities return in our community, we must stay committed to our safety protocols. These are in place to help you stay safe and to limit exposure to the virus in our community. While it is mandatory for all team members, we encourage all residents and visitors to wear a face mask (covering your nose and mouth) whenever you're in a public place. An excellent way to think about it is my mask protects you, your mask protects me.

As wonderful as it is to see our friends and neighbors again, we must keep proper social distancing. Please keep 6' or two arm lengths distance between you and others. Lastly, we recommend that you wash your hands frequently – especially before and after you leave your home, and before and after eating.

We are continuing to take our lead from the CDC and local and state health agencies in regards to when and what we can re-open in our communities. We will take a slow and measured approach and carefully monitor the health of our residents and community as programming expands, and add more incrementally.

The well-being and health of residents, team members, and communities remains our top priority during this COVID-19 crisis. If you have any questions or concerns, please see your community's Executive Director or call me directly at 949-242-1400.

Thank you for your continued support and cooperation.

A handwritten signature in black ink, appearing to read "MBardelmeier", with a long horizontal flourish extending to the right.

Michael Bardelmeier
