March Wind

March wind is

A jolly fellow.

He likes to

Joke and play.

He turns umbrellas

Inside out and

Blows men's hats away.

He calls the pussy

Willows and whispers

In each ear,

Wake up you lazy little
seeds

Don't you know that

Spring is here.

March into the World of Crafting

Crafting is a \$44 billion industry in America, with people of all backgrounds taking part in pastimes like knitting, quilting, making homemade jewelry and even reupholstering furniture. As both Craft Month and Knitting and Crochet month, March boasts a number of crafting holidays such as International Scrapbooking day on March 4, Children's Craft Day on March 14, and Worldwide Quilting Day on March 20.

Whether you craft as an outlet for your creative impulses or to earn money on the side, March provides ample opportunities to create something unique. Personalization might be crafting's most alluring attribute. Even if two crafters follow the same pattern or set of instructions, no two people will knit the very same scarf or build identical birdhouse. Each and every handcrafted item is a unique reflection of its maker and these personal touches are often what make handcrafted gifts so special. Crafting has long been considered the domain of older generations, yet younger generations, particularly millennials, are being drawn to crafting and other creative hobbies specifically because they can personalize their creations. In a world of mass-produced goods, millennials enjoy making unique items that bear their initials or display symbols or icons that are personally meaningful. And just as younger generations have started taking up crafting the crafting industry is changing to accommodate a new generation of crafters.

The longtime craft retailer Joann recently opened a new Creator's Studio store where young crafters gather to take classes, share ideas and rent machines. No matter how newfangled the process, there is nothing more thoughtful or special than a homemade gift.
