

A note to our residents, families, and partners,

We Did It! (the work isn't over yet)

The Seasons Living communities are all wrapping up their final doses. At a nearly 100% vaccination rate for residents, we are proud to see such a heightened awareness of the rollout. Residents and their family members are relieved for the vaccinations.

While I know you enjoyed hearing from our team through these COVID-19 updates; we are thrilled to be nearing the close of this chapter. The coronavirus will always be part of how our procedures and infection control measures operate, but as a constant reminder, we hope those days are past us.

We understand that there is a lot of work ahead for us in educating new residents, family members, and staff. But knowing that our teams consistently outperformed in providing loving, caring support to our residents, we are optimistic for our future.

Stay Seasons Strong

Sincerely,

Dan Williams
