DARE TO Dream

This was an amazing reunion between a father and his daughter. It had been several years since Howard had seen his daughter, Anita. He talked with her often and spoke of her daily but he longed to be able to hug her.

With some careful planning Anita made the journey from Texas to Kentucky for a surprise visit to see her dad. The joy she brought to him that day was priceless. The tears we all shared could never be expressed in words.

If you or a neighbor of yours has a dream that we can make happen, let a staff member know so that we can help make it come true.

The Almighty Dollar

The U.S. dollar is one of the strongest and most traded currencies on the planet, and its symbol \$ is instantly recognizable. It was invented by accident by Oliver Pollack on April 1, 1778. Pollack was an Irish merchant living in New Orleans when the Revolutionary War began. War was expensive. As a British colony in revolt, America could not use British currency, so the Spanish peso became the preferred method of payment. Luckily for Pollack, he had built his fortune in Spanish pesos through illegal trading in the Spanish Caribbean. Pollock lent the Americans 300,000 Spanish pesos, equivalent to one billion of today's dollars, and kept detailed records of his transactions. In a ledger dated April 1, 1778, Pollack scribbled "ps," short for Spanish peso, in a way that looked like the dollar sign \$. In 1797, founding father Robert Morris adopted the strange symbol for America's new currency.
