The Catch us Doing Good Program!

At The Hearth, we are confident that we have some of the best, most compassionate, caring team members in our community. That's why we want to thank them with a night off from cooking!

As you may have heard, we recently launched a program, called Catch Us Doing Good. The idea of the program is simple: recognize team members who go above and beyond the make the Hearth a great place to live. Here's how the program works:

1. There are clearly labeled submission cards and a corresponding drop box in the lobby.
2. If you see a team member doing something incredibly kind for you, another resident, or a fellow team member, you can nominate them to win a complimentary meal for 4! Simply fill out a submission card and drop it in the box.

Each week a submission card will be pulled from the box as part of a community wide drawing, and the winner will receive the choice of taking home a hot meal for 4, from the kitchen, home to their family.

Thank you in advance for acknowledging our team members, and thank you for choosing the Hearth!
