Household Hacks

A few household tips to improve your living space!

If you find yourself needing more counter space in the kitchen, get a [cutting board that sits on top of the stove or sink](#).

Brighten up your apartment with mirrors, which can help make your apartment look bigger by bouncing natural light around the room.

Need a light where there isn't one or in a place near an outlet? Insert a [battery-operated puck light](#) into a [wall lamp](#) using Command Strips and affix the light to the wall where you need it. [Check out this tutorial](#).

Use [corner shelves](#) to add some extra shelving that's out of the way and in an area that you aren't otherwise using.

Don't have any room on the end of your sofa for a table? Purchase a [skinny table](#) to put behind your couch to sit a reading lamp on.

Hang your curtains on an extra-long curtain rod up near the ceiling. The floor-length drapes help your windows look both taller and wider.
