## **ATLANTIC PACIFIC COMPANIES NAMED AS ONE OF THE BEST PLACES TO WORK BY THE NATIONAL APARTMENT ASSOCIATION**

The National Apartment Association (NAA) announces Miami, Florida-based Atlantic Pacific Companies (A|P) as a winner of the 2021 NAA Best Places to Work award program, which identifies member organizations that encourage employee engagement and performance that foster collaborative and innovative work environments. The award pays tribute to employees and their hard work, which directly contributes to the success of suppliers, management companies, and the rental housing industry as a whole.

“At A|P, we are family; literally and figuratively. We have created a work environment that allows space for collaboration and innovation,” said A|P’s COO Randy Weisburd. “We are beyond humbled to be recognized as NAA’s best places to work; this is only possible with our A|P family that’s growing bigger and growing better every day.”

“Congratulations to Atlantic Pacific Companies for building an organization focused on employee engagement and performance,” said Bob Pinnegar, NAA President and CEO. “Your employees made it clear that A|P is a great place to work that cares about, listens to, and acts upon the needs and ideas of their employees. Congratulations to the entire team.”

Winners were determined based on scores gathered from a Net Promoter Scores (NPS)-based employee satisfaction survey, launched as part of the awards program. Employees themselves determine where their organization ranks, providing employers with valuable, firsthand feedback about their workplace.
