Secondhand Hope

Secondhand Hope program offers companion pet visits to Minnesota assisted living communities and other facilities. Their goal is to provide both humans and animals with comfort, socializing, and companionship. Volunteers bring their personal animals, including dogs (both large and small) and cats, to participate in the visits. Studies have proven that interaction with companion animals offers a wide range of benefits, both mental and physical.

Our residents love coming out for ice cream socials on Fridays with live entertainment.
