## FOREVER FIT: Focus on Fitness

### A Fresh Start

A great exercise plan starts with a great foundation and a commitment to wanting to improve how we move and how we feel. The past 15+ months however have taught us that the world around us often has other plans, directly impacting the consistency and success of even the best designed fitness routine. A lack of consistency coupled with countless stressors have changed the way even the most dedicated individual approaches exercise. Putting it simply, “life gets in the way” and that’s ok, the good news is that it’s never too late to hit the reset button and get a fresh start on your exercise journey. As we slowly return to normal, now’s the perfect time to reassess your current fitness level and determine what changes can help you return to your strongest, healthiest self. By taking some time to meet with our fitness team whether for just a few quick questions or a full assessment we can help identify your strengths and create an accurate picture of your current fitness level to better help you start your fitness journey on the right foot. This summer commit to movement and let our fitness team help you reclaim the health and fitness that lets you feel your very best heat of the sun.
