

GRAND VILLA SENIOR LIVING

BREATHE

Easy.

NEW Air Safety Technology

You can rest assured that Grand Villa is doing everything possible to keep our residents healthy. The **REME HALO® with PHI-Cell®** air purification system has been installed in each community's common areas. This system has been shown to *significantly neutralize* the virus that causes COVID-19, as well as most all other airborne and surface-level viruses, reducing the risk of person-to-person infection.

To us, all Grand Villa residents are *like family* and we will do everything possible to protect their health and well being. Just ask them!

GRAND VILLA
SENIOR LIVING COMMUNITY

Looks like home. Feels like family.®
