FARM CONNECTIONS

We think the best eggs come from happy chickens... so all of our eggs are from cage-free chickens. To get those great eggs, we partner with two NW farms: **Steibrs Farms** in Yelm, WA and **Wilcox Farms** in Nisqually, WA. Both farms raise their chickens using humane practices, vegetarian feed and no added hormones and antibiotics. Each of these farms are family owned with a long and rich heritage in the NW.

Our commitment to sourcing from ethical and conscientious growers and producers aligns perfectly with Stiebrs and Wilcox farms and we are proud to call them our partners!

By the way... anyone know which came first – the chicken or the egg?

Made-without-Gluten, Dairy Free, Nut Free, Vegetarian & Vegan options are available
