Physical Therapy for Improved Quality of Life

Follow your medical professional’s advice and speak with them before changing diet, exercise, or supplements.

You may think of a physical therapist as one to go to for healing and strengthening after an injury. While physical therapists are great for that, they also do much more. Physical therapists can help people by diagnosing physical conditions, improving movement, managing pain, restoring function, and preventing disabilities, according to the American Physical Therapy Association.

Physical therapists help people through all stages of life with care, education, and treatment plans that aim to improve overall quality of life. They may approach issues with proper stretching techniques, strengthening and core-focused exercises, ice and heat, or ultrasound, to name a few approaches.

This Physical Therapy Month, we've delved into five ways physical therapy can help people, especially older adults.

5 Potential Physical Therapy Benefits

Improved Movement: Physical therapists can identify, diagnose, and treat movement challenges, and in some cases can help people to avoid having surgery.

Pain Relief or Prevention: Physical therapy can provide long-term pain solutions with exercises, joint and soft tissue mobilization, ice/heat therapy, ultrasound, and electrical stimulation for relief or restoring function.

Did you know? There are many physical therapy focus areas, including but not limited to: orthopedic, neurological, vestibular, and cardiovascular!

Management of Issues with Diabetes: Physical therapists can help prescribe and teach exercise for lowering blood glucose levels, treat chronic pain, improve walking ability, treat sores, help with assistive devices, and restore normal movement and balance.

Management of Issues As We Age: Physical Therapists may be able to help with managing arthritis, managing pain, osteoporosis and/or recovering from procedures like joint replacements. They may also be able to help prevent or recover from falls with exercises.

Strengthening After a Stroke: Physical therapists can help improve function and balance with Constraint-Induced Movement Therapy, functional electrical stimulation, and motor imagery, among others.

For those who haven’t tried physical therapy, but are interested, a great first step would be to reach out to a local physical therapist and see how they might be able to play a positive role in healthy living. Let us know if this information has been helpful to you on our facebook page!

Special Moments

Happy Birthday!

- Pat M : Oct. 05
- John W : Oct.17
- Terrance M : Oct. 17
- Elaine T : Oct. 22
- Norma D : Oct. 23

Those born in October are Libras (Sept. 23-Oct. 22) or Scorpios (Oct. 23-Nov. 21). Their birthstones are opals & tourmaline. Their birth flower is the Calendula. More American presidents have October birthdays than any other month!
