THE MONTHLY GAZETTE

"Our spring has come at last with the soft laughter of April suns and shadow of April showers."

~ Byron Caldwell Smith

Dog of the Month – Cavalier King Charles Spaniel

The Cavalier King Charles Spaniel, also simply called a Cavalier, is an athletic, attentive toy dog breed that embodies regal grace, a sweet temperament, and adorable charm. They have a lavish history as companions and lap dogs to British royalty and noblemen. However, these playful dogs adapt to a variety of environments and interact well with children and other dogs. Additionally, they easily acclimate to either active or more sedate lifestyles (and owners). Cavaliers come in a variety of color combinations, including black and tan, black and white, and ruby, and they

tend to have tan markings. These smart, gentle dogs are eager to please, are easily trained, and make superb therapy dogs because they excel at obedience and awareness of their owners. Due to their hunting instincts, they should be kept on leash, as they might not return when called once they are on the scent of something interesting.

Flower – Daisy

April's flower is the daisy, which has long been a favorite of gardeners everywhere. Daisies have a simple, cheerful beauty that symbolizes innocence and youth. They are also very easy to care for and will grow just about anywhere. In fact, they are found all over the world except in Antarctica. Just add water and sun, and these little sunbursts add some brightness to any garden. The daisy's Latin name, *Bellis perennis*, translates to "everlasting beauty," revealing just how cherished this blossom has been throughout the years.

Birthstone – Diamond

Diamonds have been admired and sought after for millennia due to their brilliant sparkle and uncanny hardness. In fact, they are the hardest known material in the world. With their incredible strength and sturdiness, it comes as no surprise that diamonds have come to represent constancy and devotion. The Romans, who believed diamonds would make the wearer stronger, used them as amulets. Today, they represent love and are commonly used for engagement rings to symbolize commitment and devotion.
