### Daily Check-In

#### via Emergency Pull Cord

Between 5:30 AM and 10:00 AM each day, you are asked to pull the emergency pull cord, count to five (5), and immediately disengage the cord and push it back up. This will signal to staff that you are OK. Each day, after 10:00 AM, CABA will run a report that will show us who has or has not checked-in through their emergency pull cord. If you do not check in by pulling the emergency pull cord during that time, CABA will check on you, first, by calling you on the telephone and, second, if you do not answer the phone, by coming to your apartment and, if you do not answer the door, entering your apartment. **For that reason, among others, it is imperative that you (1) advise the front desk in advance if you will be away from your apartment overnight, and (2) ensure that nothing obstructs the entryway to your apartment.**

Thank you,  
CABA Management

## **A Message from our Business Office Director**

Dear CABA residents,

I am so honored and happy to be a part of such an amazing community! I have had a chance to meet many of you, and if I haven't met you yet, I would love the opportunity. As you know, I am new here. This is my 2nd month and with that being said, I would just like to thank you all for your patience with me during this transition. Also, as you may or may not know, we are fairly short staffed in our nursing department. Rest assured that management is working tirelessly to bring in Good, Caring and experienced nurses to care for our residents that need it. We are almost there. So thank you for your patience and cooperation during this time.

Many Thanks,

Taija Patrick  
Business Office Director

On behalf of Genesis I am pleased to announce that Genesis rehab services, Vitality to you and Respiratory health service have been reimaged and are now Powerback Rehab and thus the company name is changed from Genesis Rehab to Powerback Rehab. This is just a name change and not a change in ownership or leadership. We are here for all of your therapy needs you may have now or in the future.

Ankur Shah, PT, DPT  
Director of Rehab
