Sunrise Sensations - DayBright Light Therapy Lamp Full Spectrum, 10,000 LUX, UV-Free, Full Size, Adjustable Light Built from Real Hardwood

[\\$149 on Amazon](#)

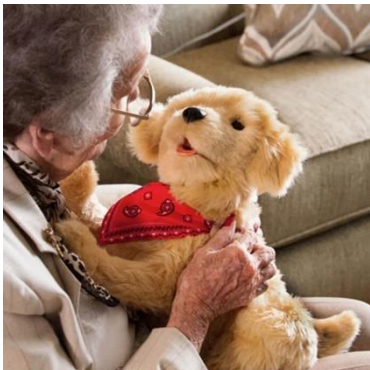

The advertisement for the DayBright Light Therapy Lamp features a wooden lamp with a large, adjustable light panel. The lamp is shown next to a small potted plant and a pair of glasses. The text 'SUNRISE SENSATIONS DayBright Light Therapy Lamp' is prominently displayed. A callout box states 'A True 10,000 LUX Therapy Light' and explains that many smaller devices claim to be 10,000 lux but cannot maintain that rating at the same distances and areas as larger lamps. The DayBright features a longer effective range and wider effective field for full 10,000 lux intensity. Below this, a diagram titled 'Benefits of a Larger Therapy Light' compares a small lamp's narrow field of light (only 10,000 lux at close range, only 10,000 lux within narrow field) with the DayBright's wider effective 10,000 lux field and longer effective 10,000 lux range.

Alzheimer's Dementia Activities:

Playmate Pets | Animated Robotic Therapy Pet [\\$109.99 at Alzheimer's Store](#)

Therapy pets have a remarkable effect on women (and men) in the middle and later stages of Alzheimer's disease. They are calming, soothing and bring the person back to a time in their life when they felt useful and had a sense of purpose; when caring for a young family member was the #1 priority. **Alzheimer's pet therapy** helps patients escape from a world where someone is always caring for them.

Choose From: Golden Pup, Tabby Cat, Tuxedo Cat
