FOOTSTEPS® MEMORY CARE is a comfortable, secured community designed specifically for residents with memory challenges including Alzheimer's disease. We walk with you through the journey of memory loss, providing genuine care and increasing support. Each day we embrace moments of success and celebrate residents' happiness.

We offer many specially developed, therapeutic activities facilitated by our warm, highly trained caregivers and activity team. Everything about the Footsteps Memory Care program is designed to provide each individual the personal care, support and structure that will enhance life every day.
