## VALENTINE'S DAY FACTS

- The **X** symbol became synonymous with the kiss in medieval times. People who couldn't write their names signed in front of a witness with an X. The X was then kissed to show their sincerity. An **O** became the symbol for a hug as it is said to represent two arms encircling another.
- In the Middle Ages, young men and women drew names from a bowl to see who would be their Valentine. They would wear this name pinned onto their sleeves for one week for everyone to see. This is believed to be the origin of the expression "to wear your heart on your sleeve." 
- Over 150 million stems of roses are sold in the U.S. on Valentine's Day. 15% of U.S. women send themselves flowers on this day. 
- About 8 billion candy hearts will be produced this year – enough to stretch to and from Italy to Arizona 20 times. 

## Therapy Success Story: Don S.

I was admitted to Holton after a stroke and a broken right hip. When I got to Holton, I was bed bound and couldn't move. I had to learn how to do everything all over again. I am able to walk with a walker and the strength on my left side is returning. I am able to do so much more now. Physical Therapy has helped me a lot! At first my food was pureed and I needed help to feed myself and now I am eating a full menu of foods. I am looking forward to returning home with my family. I know I still have a long way to go and will need help at home but at least I know I am going home. The therapists were great working with me and my family to get me equipment, work on strengthening me, and training my family on how to take care of me. I would highly recommend Holton Manor: they are great!! I can't thank them enough for all they did for me.
