Cornerstones – The Ebenezer Difference

Featuring: Person-Centered Care

Our Person-Centered Care Cornerstone at Ebenezer is the coordination of personalized care throughout the continuum of integrated services. We serve our residents with genuine care, compassion, integrity, dignity, and love them like family.

Customized Care Plans

As a leader in the senior care industry, Ebenezer's reputation of top-notch care is due in part to the detailed processes and customized plans that we create for our residents. Each resident that moves into our housing with services receives a resident-centered plan of care that lists in detail what support they need along with the time and frequencies of those services. We also incorporate considerations of special preferences that person may have.
