Online Reviews for Reprint

Our uncle passed last night at Geneva Lake Manor where he has lived since late March 2023. We've been so grateful for the care, and caring, that he received at Geneva Lake Manor! He used to live across the street in senior housing, and we believe he was happier at the nursing home than in his old apartment. Most people can't say that. He loved the food; the nurses and other staff were kind; he liked bingo - and when he started hospice care they were able to move him into a single room. The hospice team add another level of love and caring to his experience. There's no family in Wisconsin so the staff was gracious about helping when we visited and updating us when anything happened. We're all very grateful to Geneva Lake Manor for their support of our uncle.

Paper Snowflake Craft

Paper snowflakes are a fun and easy craft for winter. Follow these simple step-by-step instructions to make your own snowy decor.

Supplies: Sheets of 8.5in x11in paper and scissors (Optional: pencil, glue, glitter)

Start with your sheet of paper vertical.

- Take the bottom right corner of the paper and fold it diagonally to the opposite corner, forming a triangle.
- Take the bottom left corner of the folded triangle and fold it up in half again, so the right-angle corner meets the opposite side, creating a smaller triangle.
- Cut off the excess paper across the top, leaving just your triangle.
- Fold the right corner to left once more to make a smaller triangle.
- Using a pencil, lightly draw your snowflake design on the folded triangle. You can create simple geometric shapes or more intricate patterns.
- Carefully cut out the shapes you've designed.

Be creative and make different cuts to form your unique snowflake.

- Be sure not to cut all the way from one side of your triangle to the other.
- Gently unfold the paper to reveal your paper snowflake.
