Riddle Answer (page 2): A relationship

Happy Hour!

RESIDENT SPOTLIGHT: CLAUDETTE

Claudette came to Regency Village at Bend via California in September 2024. Her grandson, Ryan, assisted her in finding this place. She is quite proud of her grandson's life and accomplishments. Ryan manages the Fairmont Vancouver Airport International Hotel in British Columbia. He is married to Jannika, who is highly intelligent and speaks five languages. They have a two-year-old daughter, Mara, who is Claudette's only great-grand child.

Claudette was raised by her Yugoslavian father and mother in Bel Air, California. Her father was a blacksmith. Impressively, he designed and hand constructed the iconic Bel Air Gates in Beverly Hills!

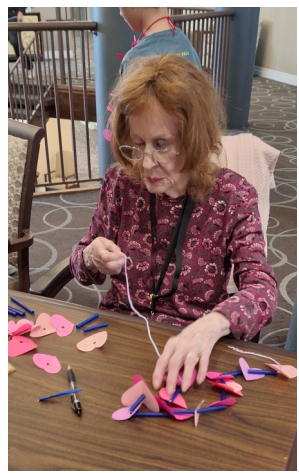

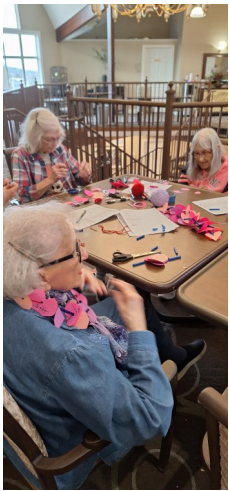

She attended West Lake School for girls from tenth to twelfth grade. Since so many famous people attended this private high school, she had to sign-in to school with an identification number, instead of her name, for security purposes.

After high school, she went on to attend the University of Southern California (USC). Then, later in life, she attended the Gemological Institute of America (GIA). She worked as a gemologist most of her career where she was a wholesaler of diamonds and colored stones. She then went on to work for the Federal Bureau of Investigation (FBI) for eleven years.

Claudette was an avid car enthusiast for most of her life. She owned several Mercedes, a Ferrari, a Lamborghini, a porch, etc. She stated that she got rid of several vehicles because they were just "too fast." She was fortunate to never receive a ticket!

She also enjoyed traveling. She traveled throughout South America and found the people there to be very interesting. She also traveled to Europe and had the privilege of seeing K9 from the air.
