**FOREVER FIT /** Chris Grabowski, MS | Senior Forever Fit Manager

**THE PERFECT PAIR** A strong body starts from the ground up and choosing the right shoes is key part of keeping our feet healthy. Correctly fitting shoes can help to reduce foot, knee, hip and back pain and promote healthy circulation. Shoes with low-padded heel drops, proper arch support and wide bases with good traction can also drastically help to reduce the risk of falls. As we age it's not uncommon for our feet to also get wider and flatter. Nearly 1/3 of seniors will suffer from chronic foot pain much of which is caused by ill fitted footwear. Having your feet accurately measured by professionals who specialize in shoes for seniors can help to ensure a well fitted shoes and feet that will feel the difference.

The Anna Scripps Whitcomb Conservatory, a beloved Detroit landmark at Belle Isle Park in Detroit, has reopen after two years of extensive renovations. This significant undertaking marks the completion of the final phase of a comprehensive plan to revitalize the upper 60 feet of the 80-foot-tall conservatory dome. The first phase of this comprehensive renovation project, was completed in 2019, which included the replacement of all 20 original steel trusses. A total of \$2.5 million, including a \$1 million grant from the Ralph C. Wilson, Jr. Foundation Grant, was invested.
