

Dear Residents,

We wanted to keep you informed about some important work happening with our elevators. As of March 31st, we've started sealing the elevator pits for the Pelican Building 4-stop elevator. The following week, beginning Monday, April 7th, we'll begin sealing the pits for the 2-stop elevator. Each hydraulic elevator pit will take approximately one week to complete.

For the Pelican Building, the elevator pits are larger, which means it will take about two weeks to complete sealing them. We're scheduled to work on the guest elevators in the Pelican Building from April 14th to April 28th. Afterward, we will move on to seal the guest elevator pits in the Dolphin Building, from May 5th through May 19th.

As a result of this work, the elevators will be out of service during these timeframes, and we will need to reschedule residents and movers who may be affected. If you need to reschedule, please don't hesitate to email us at **evacinfo@barclayseniorliving.com** or call **727-381-5411**.

If you have any questions or need further information, please feel free to reach out. Thank you.
