Claiming that a pet is a Support Animal for a disability that does not exist is a dishonest and fraudulent act that delegitimizes the proper use of Service Animals for the people who really need them.

Examples of dishonest and fraudulent acts:

- A resident or applicant making a false claim of mental or physical disability.
- A health care professional who “sells” a Support Animal / Service Animal prescription or provides a diagnosis of a disability without a proper examination and without a preexisting relationship with the patient.
- “Patients” and health care professionals who falsely claim ongoing treatment when there has been little if any consultations and no ongoing care.

We will enforce our legal rights against those dishonest and fraudulent individuals that undermine disabled people’s vital right to maintain a Service Animal / Support Animal.
