

### A piece of keystone history

Nancy shared a special memory of the hat her mother made for her. This hat was made for Nancy when she was in 2<sup>nd</sup> grade! She wore it while performing patriotic songs in the park!

### Key associate of the month

Katelyn Laska deserves a shining spotlight as employee of the month for how quickly she became a standout caregiver, a reliable teammate, and has shown exemplary commitment to the community. Her work ethic is never in question and staff and residents love when she is working! Thank you, Katelyn for showing us how to work hard and making it look easy! You are a valued member of the Keystone family!

### SEVERE WEATHER

### SEASON IS UPON US!

### In the event of a severe storm or tornado:

- Stay away from windows and close blinds
- Seek safety in an internal room with no windows, such as the bathroom
- The safest place is the hallways and the emergency stairwell exits.
- If seeking safety in the stairwell **DO NOT go up or down the stairs.**

### INDEPENDENT RESIDENTS

Now is the perfect time of year to update your **RED EMERGENCY** binders. These binders are located on top of your fridges.

Please make sure the following information is correct and up to date:

- Medication list
- Emergency contacts
- Primary doctors contact
- Medical concerns or diagnosis
- DNR/ DNI Status

What is hospice??

Hospice is specialized care you may receive when your prognosis is measured in months instead of years, and comfort is the primary goal. Hospice can help you prepare physically, emotionally and spiritually as you near the end of life. The aim of hospice is to allow people to maintain control over their lives, live with comfort and dignity, and feel supported as they prepare for death in their own way.

Hospice providers have expertise in managing symptoms, so you can feel comfortable and spend your final days in ways that are important to you. You and your family are surrounded with an extra layer of support from hospice nurses, social workers, chaplains, home health aides, physicians, volunteers, and bereavement counselors.

Providers may recommend hospice when treatments to cure your condition are no longer beneficial and providers don't expect your condition to improve. Medicare and most private insurers cover hospice care costs.

😂 Funnies 😂
