JUNE PICTURE HIGHLIGHTS

FOREVER FIT: HEALTHY HYDRATION

Healthy hydration habits are important any time of the year but they become essential during the hot, humid summer months. As we age the water content in our bodies naturally decreases, our sensation of thirst diminishes and the side effects certain medications can greatly increase the risk for serious dehydration in seniors. The good news is small changes to our daily routine can greatly improve our chances to stay healthy and hydrated in the months to come. Making sure there's always fluids nearby to drink throughout the day, eating plenty of water rich fruit and vegetables like cucumber and watermelon, and avoiding strenuous outdoor activities during the peak hours of the afternoon are simple changes that can make a major difference.

LIFE ENRICHMENT CORNER:

Hi everyone and Happy July!

This month I am starting a new club, our very own bird watching club with Becca! Starting mid-July, we will be outside in our courtyard or walking around the building trying to find different types of birds as we learn more about them! We'll have binoculars, bird seed, bird books, notepads and lots of fun! Please join me and let's try something new while enjoying the nice summer weather while it's here! Check your monthly/ weekly calendars for specific dates and times for this event to join, thank you!

If there are any other activities, events, crafts, outings or anything you'd like to see in the future with the warmer season continuing next month, please let Becca know and she will try to schedule what you want to see on your upcoming calendars! Hope you have a great July!!

Please check the July Life Enrichment Calendar for all other current scheduled events!! Thank you!
