FOREVER FIT: Morning Meditation

The holidays are a wonderful time of the year filled with friends, family, parties and gatherings. It’s also some of the more stressful week on the calendar filled with schedule changes and obligations that pull you from your current routine and into a space that can feel somewhat overwhelming. So, take this a gentle reminder that the holiday stress is normal and OK, in fact use this opportunity to acknowledge it and find positive ways to work through it. How we manage this stress will directly impacts how our bodies and minds feel in the weeks to come. This December tries adding a morning meditation to your daily routine. Each morning take some quiet time for yourself to slow the body, calm the mind and allow yourself to connect with how you feel. It could be something as simple as a 5-minute gratitude meditation giving thanks for what you have in your life or something longer like a 10-mintute body scan allowing yourself to acknowledge how you physically feel today. No matter the time or type this daily practice of mindfulness is the perfect was to quiet the stress and connect to the world around you.
