Alzheimer's and Brain Awareness Month

June is Alzheimer's and Brain Awareness Month, an annual observance raising awareness of Alzheimer's disease and other dementias. For years, the Waltonwood family has partnered with the Alzheimer's Association to support the mission of a world without Alzheimer's and other dementias. While there still may not be a cure, taking proactive steps and developing healthy lifestyle habits have been shown to slow the onset of the disease and delay its debilitating effects. Much like heart health, cognitive health can benefit greatly from increasing physical activity and exercise, eating a well-balanced, nutrient-rich diet and effectively managing stress. It's never too early or too late to start taking better care of ourselves, and small changes today can help lead to healthy years to come.

WHAT IS FLAG DAY?

Flag Day is celebrated in the United States on June 14 each year to honor the adoption of the American flag in 1777. It is a day for Americans to show pride and respect for their country and the values the flag represents, such as freedom, unity, and patriotism. Many people celebrate by displaying the flag at their homes, attending parades, and participating in community events. Although it is not a federal holiday, Flag Day remains an important tradition that reminds Americans of the history and meaning behind the nation's flag. Support shared among our residents, families, and team members, as it is truly what makes our community feel like home. We remain committed to creating an environment where every resident feels valued, supported, and encouraged to live each day with purpose and joy. Thank you for your continued trust and partnership, and I hope this month brings each of you plenty of sunshine, laughter, and memorable experiences.
