FOREVER FIT: Proper Preparation

Summer is the perfect time to mix things up and take our exercise routine outdoors. The fresh air and sunshine are the perfect combination to help reinvigorate the mind, body and soul. Before you head out the door ask yourself one thing, "What's the weather?" While knowing the temperature is a good start looking at other factors like humidity, dew point, air quality, precipitation and wind speed can also greatly impact the overall safety and enjoyment of your exercise experience. If you happen to be an individual who also suffers from respiratory issues, a quick check of the weather before you head out the door is an even more important first step. This summer get to know the elements because the better prepared you are for the conditions the better your exercise will be.

EXECUTIVE DIRECTOR CORNER

July starts what some refer to as "the dog days of summer" with temperatures rising to high levels be sure to remember to hydrate and take breaks from the outdoor heat. A fun way to kick off the dog days of summer at Waltonwood is through our Clear the Shelter Campaign where we support cat and dog adoptions in partnership with Huron Valley Humane Society and Bottle Babies. In addition, we are collecting pet supply donations at the community, and our residents are working on items to drop off to these lovable fur friends! Check out Facebook & flyers at the concierge desk for all the fun ways to support. I am also happy to announce our Environmental Services Manager Art Romualdo will be staring with us on July 13th!! Let's give him a warm welcome back to our Cherry Hill community.
